## Report of the Superintendent of Schools

---

*To the Superintending School Committee, and Citizens of the Town of Bucksport.*

From the records left by my predecessor and from my personal supervision, I submit the following report of the schools and school property of the town of Bucksport.

### TEACHERS

There was only one change in the teaching force of the village schools at the beginning of the Fall term. Mr. Philip Smith was elected to fill the vacancy caused by the resignation of Mr. Verner Robinson. At the beginning of the fifth week of the Winter term, it was decided to employ an assistant teacher in the Grammar School, on account of the number of pupils, there being sixty-six enrolled. This new arrangement is proving very satisfactory.

The Rural schools opened with three changes. Miss Ruth Goss, succeeding Miss Ethel Fogg at the Cobb School, Miss Jennie Drake, succeeding Miss Eleanor Cole at the North Bucksport School, Miss Gracia Attwood was transferred from the Millvale school to the Buck's Mills School to fill the vacancy caused by the resignation of Mr. Ervin Farrington, and Miss Marcia Morse was elected to fill the vacancy at Millvale. At the close of the Fall term, Miss Morse resigned, and Miss Christina Delano was secured to fill the position. All the teachers have had experience, with two exceptions, and are doing all that they can to make the work progressive, and profitable. For our schools to be efficient and progressive, it is necessary for the teachers to keep in touch with the new methods of education, by Summer Schools, Conventions, Educational Journals, etc.

At the beginning of the Fall term, it was decided not to reopen the Duck Cove School, but to transport the pupils to Buck's Mills: on account of the few children in this section of the town.

### ATTENDANCE

The attendance of the schools has not been satisfactory, on account of sickness, bad roads, and the severity of the weather. It was decided because of the long distance that some of the small children have to go and the weather conditions, to close the Millvale, Buck's Mills, and Hancock Pond Schools for several weeks during the Winter. With a few exceptions, the parents have tried to cooperate with the teachers in maintaining a good attendance. The Parents should remember that the amount of benefit derived by the child, depends largely upon the interest taken in his school work, and it is difficult to retain this interest upon the part of any pupil who is irregular in attendance.

### TEXT BOOKS

The schools are fairly well supplied with text books. Supplementary Readers are needed for the lower Grades. Some new Geographies and Histories must be purchased, as those now in use are in very worn condition. Each of the Rural schools should be provided with a set of Reference Books.

### REPAIRS

In the following statement will be found the repairs made during the year, and also the condition and needed repairs on each building.

### GRAMMAR

No repairs have been made on this building. It needs to be thoroughly repaired. The plastering is off in a number of places,

the heating system should be carefully overhauled, and the chimney, above the roof should be rebuilt.

### EAST END SCHOOL

This school house has been painted and all necessary repairs made. The building is in a very good condition.

### WEST END SCHOOL

This building has been painted. Except for the toilet system, it is in very good repair. The State Educational Department has given the Town \$200.00 toward placing this school house in a more sanitary condition.

### HANCOCK POND

No repairs have been made on this building for some time. The school house should be thoroughly renovated inside and out. It needs painting very badly. The toilet system should be replaced by a more modern one.

### BUCK'S MILLS

Only minor repairs have been made. The school room needs to be painted, papered, and the ceiling murescoed. The building should be painted. The outbuildings are in a very poor condition.

### MILLVALE

This building is in good condition. It should be painted and a few minor repairs made the coming summer.

### BUCKSPORT CENTRE

This school house needs painting, and the school room thoroughly repaired.

## COBB SCHOOL

It will be necessary to make a few repairs on this building. The outbuildings are far from being sanitary.

Something should be done about the toilet systems of the Rural schools, as none of them meet the minimum requirements of the State Educational Department. I respectfully call your attention to Chapter 33, Section 1, in the School Laws, which states that after September, 1924, all school buildings will be required to meet a certain standard in regard to sanitation.

## CONCLUSION

Any school reflects the interest and support of the people of the town. I have every reason to feel that the people will demand and gladly support our efforts to maintain a strong educational system. No school system can remain stationary, but it must expand and progress if it is to keep step with the schools of today. Necessary changes must be made to meet the conditions of the present time.

Parents should strive to cooperate with the teachers in every way in order to obtain the best results. The attitude of the pupil toward the teacher is often a reflection of the sentiment of the home, and the pupil can do his best work under any teacher only when the home influence is favorable.

In closing I wish to express my appreciation to the Superintending School Board, other Town Officials, Teachers, and Citizens for their support and courtesy since my election as Superintendent of this District.

To the former Superintendent, Miss Abbie M. Buck, I acknowledge my indebtedness for her valuable information and suggestions.

Respectfully submitted,

E. R. BOWDOIN,

Superintendent of Schools.
